

EGRO BYO QUICK CLEANING REFERENCE

Daily Cleaning of Milk System

1 On the upper right corner of main screen of the BYO, tap on the water drop icon to enter cleaning menu. 

(Alternative method, press 3 lines in upper right corner and choose operator menu and enter password, 1234).

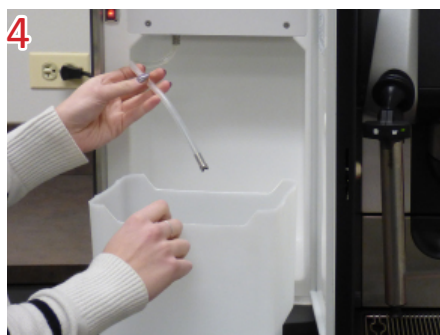

2 Tap on Coffee & Milk cleaning.

Note: If your model doesn't include automatic milk delivery you only need to choose the Coffee Cleaning option.

3 Add 1 Egro Milk Cleaning tablet in an empty container and place into refrigerator.

*Use one (1) Egro Milk System Cleaning Tablet per milk tube

4 Place container into refrigerator with the milk tube in the container. Continue with on-screen instructions.

5 When the cleaning is done, remove the container and clean milk tube if needed. Remove if necessary, be sure fitting is properly reinstalled, if removed. Place milk back in refrigerator. The machine is ready for use.

DO NOT SHUT OFF THE MACHINE DURING CLEANING

It will cause the machine to become disabled and your warranty may be voided.

Powering off the machine will NOT reset the cleaning counter. The only way to unblock a machine that has been blocked due to lack of cleaning is to perform the complete daily cleaning.
