

MODE PURE COFFEE

The MoDe is a super-automatic espresso machine that packs the latest Ego technology into a compact design. High performance and versatility are combined in a sleek brewer with solutions to improve coffee quality and speed up service.

FEATURES

Simplified Setup

The MoDe connects to a standard 20 A commercial wall outlet and occupies less than 12" of counter width, making easy to add superautomatic espresso to your space.

Premier Drink Quality

Every Egro model is built with coffee quality at the forefront. Our proven brewing system delivers best-in-class taste and precise control over brew variables.

Customizable Interface

A new simplified user interface allows you to personalize icons, backgrounds, screensavers, and more.
